# EKOLOOPZ - Hip Hop Planet

Nothing but first class beats and sounds

Hip Hop Planet from the brand new EKOLOOPZ series isn't another Urban sample library... Why ?

- First of all : sound quality

This library was produced the same way the best Hip Hop and R'n B tunes are. From creating and mixing the construction kits - with a unique way to analyse and process the sounds -, to the mastering, done at Sterling Sounds in New York by top mastering engineer Chris Gerhinger. The result is that punchy sound you won't find anywhere else. All recorded at 24-bit 96 kHz resolution.

- Unprecedented flexibility, compatible with MOTU BPM

Even if the library can be used right away with the included UVI Workstation, it also contains data for the new MOTU BPM format, making the library completely flexible with the patterns and kits in BPM format and allowing thousands of combinations.

- More content than the usual sample library

Hip Hop Planet contains 87 construction kits produced by Eric K-Roz for EKOLOOPZ. From these kits were extracted over 3.5 GB and thousands of all-new, never-before-released loops, samples and beats. All organised in different way:

- Sliced loops & phrases
- Individual sounds sorted by type and by construction kits
- Ready to use drumkits
- BPM data including patterns, kits, and pattern + kits
- Instruments "X-Samples" : ready to play "sample" instrument extracted from construction kits.

Better than any word, take a listen to audio demos, to figure out the sound quality of the library. No doubt, this is the first high-end Hip Hop library ever packaged to rock the world!

## EKOLOOPZ-Hip Hop Planet

Tempo	Key	Song Name	Tempo	Key	Song Name
058	D	Like A Bird	092	F	On Fire
067	A	Cinetik	093	E	Take Care
